

January 21, 2009

Dear Tammy,

Let me begin by thanking you and the staff of AATEL Communications Inc. for choosing Diabetes Hope Foundation as the charity of choice for the funds raised at your Annual General Meeting and Fundraising event. It is apparent that AATEL's corporate commitment to community involvement is a priority to your management team and employees alike. The "pay it forward" mentality of corporations and individuals is something that Diabetes Hope Foundation appreciates and basically survives upon.

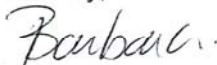

I have taken the liberty of enclosing an introductory package of information to acquaint you with Diabetes Hope Foundation and our activities, events as well as our mission for the future.

As the mother of three boys, two of whom have diabetes, I have seen first-hand the many challenges children face as they grown up with this difficult and unrelenting disease. I created Diabetes Hope Foundation to assist children and adolescents living with diabetes achieve their full potential in education, self-management and future independence. Diabetes Hope Foundation continues to be the only Canadian non-profit foundation dedicated to improving and enhancing the quality of life of children and young adults living with diabetes each and every day. The demand for our programs and support continues to grow each year.

For ten year we have supported youth and families throughout Ontario. So many times we hear stories about families who have to decide between paying for food and paying for life sustaining medications for their children. Our dream is to be able to offer to anyone in need: Start-Up Kits to newly diagnosed youth, financial assistance to families who have difficulty purchasing the necessary diabetes supplies, and Hope Scholarships to students who will be pursuing post-secondary education. In partnership with paediatric diabetes clinics across the country, we are currently expanding to other provinces to meet the growing demand.

Once again, I wish to thank you for the very generous donation.

Sincerely,

Barbara Pasternak
